TIMBER AND ON SITE LABOUR

HOME UNDER CONSTRUCTION — GREY WALLS

- Suitable for Modern Homes, Factories and Garages.
- Simple fixing by nailing battens to a gauge and the "Masonry Veneer" interlocks itself as a "solid".
- The structure has added strength with the cross timbers bracing the walls.

Superior to weatherboards in quality, and more economical.

Fire Insurance compares with that of brick.

Waterproofed with "NONPORITE" and 5 in. cavity.

No maintenance cost of paint, etc.

No cracking of walls with expansion joints.

No plastering necessary.

Walls that last for generations.

Passed all tests and by-laws.

We supply and fix.
